1. GENERAL

1.1 NOTICE TO OFFERORS

1.1.1 THIS SOLICITATION IS BEING ISSUED AS A TOTAL SMALL BUSINESS SET-ASIDE. THE NAICS CODE FOR THIS PROCUREMENT IS 236220 AND THE SIZE STANDARD IS \$36.5M.

1.2 GENERAL OVERVIEW OF PROCUREMENT PROCESS

1.2.1 This solicitation is formatted as a Request for Proposal (RFP) in accordance with the requirements designated by sections of the FAR 15.203. This method permits evaluation of proposals based on price competition, technical merit and other factors; permits impartial and comprehensive evaluation of offerors' proposals; permits discussions if necessary; and ensures selection of the source whose performance provides the best value to the Government. This acquisition will be solicited as a competitively negotiated procurement as a total small business set-aside.

1.2.2 The Government reserves the right to reject any or all proposals at any time prior to award; to negotiate with any or all offerors; to award the contracts to other than the offeror submitting the lowest total price; to award to other than the offeror submitting the highest technically rated proposal; and to award to the offeror submitting the proposal determined by the Government to be the most advantageous (best value) to the Government. OFFERORS ARE ADVISED THAT AWARD MAY BE MADE WITHOUT DISCUSSION OR ANY CONTACT CONCERNING THE PROPOSALS RECEIVED. Therefore, proposals should be submitted initially on the most favorable price and technical terms. Offerors should not assume that they will be contacted or afforded an opportunity to qualify, discuss, or revise their proposals. However, the Government reserves the right to clarify certain aspects of proposals or conduct discussions providing an opportunity for the offeror to revise its proposal.

1.3 GENERAL OVERVIEW OF CONTRACT

1.3.1. This acquisition will result in the award of approximately five (5), Firm Fixed Price (FFP) Indefinite-Delivery/Indefinite Quantity (IDIQ), Design-Build/Design-Bid-Build Multiple Award Construction Contracts (MACCs) for General Construction Projects in the Hampton Roads Area of Virginia. Projects will primarily be located in the Hampton Roads Area but may also be located in the NAVFAC Atlantic area of responsibility. The Government intends to award no more than five (5) contracts resulting from this solicitation to the responsible offerors whose proposals represent the best value after evaluation in accordance with the factors in the solicitation.

1.3.2. Construction projects to be performed under this MACC will primarily consist of general building type projects and may be either design-bid-build or design-build. General construction of DB and DBB projects include, but are not limited to, new construction, demolition, repair, alteration, and renovation of buildings, systems and infrastructure and may include civil, structural, mechanical, electrical, fire protection, and communication systems. Types of facilities include administrative, industrial, maintenance, warehouses, hangars, communications, personnel support, recreation, lodging, dormitory, medical, training, ranges, roads, etc. in support of the Naval Facilities Engineering Command, Mid-Atlantic, Hampton Roads Area of Virginia.

1.3.3 The completion date for the basic contract is one (1) year from the date of contract award with four (4) one-year option periods. The total five-year (base and four one-year options) estimated construction cost for all contracts is not to exceed \$249,000,000.00 for the life of the contract. Projects for the MACC have an estimated construction cost between \$4,000 and \$15,000,000; however, smaller and larger dollar value projects may be considered at the discretion of the Contracting Officer. The Government guarantees an award amount of \$5,000.00 to each successful offeror over the full term of the contract, including option years.

1.3.4 After award of the initial contracts and “seed” project, the successful IDIQ contractors will compete for task orders based on best value, using the tradeoff process or lowest price technically acceptable (to include lowest price). Only the successful IDIQ contractors will compete for task orders. Should an IDIQ contractor with a guaranteed minimum be unable to competitively secure a task order to meet the \$5,000 minimum guarantee, the Government reserves the right to negotiate a task order directly with that contractor.

1.3.5 The intent of this contract is that all IDIQ Contractors participate in pre-proposal conferences and site-visits and submit proposals on each task order. Contract awardees will be expected to submit a proposal for all Task Order Requests for Proposal (RFP) received from the Government. However, in the event a MACC awardee is unable to submit a proposal on a particular RFP, the contractor is required to notify, in writing, the Contracting Officer who issued the RFP and the ACO for the basic contract within five (5) working days from receipt of the RFP. A MACC awardee can only elect to withdraw from submitting a proposal on three (3) task order RFPs during the course of each year of the contract (base plus four options). Additional withdrawal requests, in excess of three per year, may result in the Government choosing not to exercise remaining option terms.

1.3.6 Each task order will contain project specific evaluation factors that will vary depending on the unique requirements for each task order. Additionally, each task order will cite a specific completion date and associated liquidated damages.

1.3.7 Contractor Performance Information: Contractor’s performance will be evaluated using the respective contractor performance evaluation report entry system located on the website <http://www.cpars.gov/>. Prior to commencement of work the contractor is required to provide the government with the name, phone number and e-mail address of the “Contractor’s Representative” that will be responsible for receipt and review of draft performance evaluations prepared by the government in the appropriate system. It is the contractor’s responsibility to keep this contact information current.

2. GENERAL OVERVIEW OF THE SEED PROJECT

2.1 The initial project to be awarded as the first task order along with the basic contract will be V10 structural foundation and crawl space repairs. This project includes shoring up the structure, removing the existing column foundation base plates and replacing them with cast-in-place concrete pedestals; cleaning and painting columns and structural steel; regrading the crawl space and installing a concrete slab and reinforced concrete sumps. Cleaning and insulation of steel deck underside. Electrical repairs including removing and replacing damaged electrical

conduits and supports; grounding system refurbishment and replacement of communications cable tray. Plumbing work including repair and replacement of damaged domestic, chilled, sanitary, sprinkler and fuel oil piping. Installation of new catch basins, sump pumps and ventilation fan to forestall future corrosion damage.

* Solicitation Section 00800 will include the General Requirements for the seed project.

2.2 Pursuant to FAR 52.232-18, Availability of Funds, the Government's obligation under this solicitation, or any task order or contract that might result from the solicitation is entirely subject to, and contingent upon, the availability of appropriated funds. Should the Government be unable to award the seed project, the Government guarantees an award in the amount of \$5,000.00 to each successful offeror upon award of the Multiple Award Construction Contracts. This minimum guarantee is over the full term of the contract, including option years. No legal liability on the part of the Government shall arise until funds are made available to the Contracting Officer and a task order or contract is awarded by the Contracting Officer. Any offeror proposing on this solicitation does so at its own cost and with the full knowledge that a task order for the seed project, might not result from this solicitation.

3. BASIS FOR AWARD

3.1 The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contracts; to negotiate with offerors in the competitive range; and to award the contracts to the offerors submitting the proposals determined to represent the best value—the proposals most advantageous to the Government, cost/price and other factors considered.

3.2 The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

3.3 The tradeoff process is selected as appropriate for this acquisition. The Government considers it to be in its best interest to allow consideration of award to other than the lowest priced offeror or other than the highest technically rated offeror.

3.4 The relative order of importance of the non-price evaluation factors is that the technical factors (Factors 1 through 3) are of equal importance to each other and, when combined, are equal in importance to the past performance evaluation/performance confidence assessment (Factor 4). When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (i.e., the non-price evaluation factors) are of approximately equal importance to price.

3.5 Any proposal found to have a deficiency in meeting the stated solicitation requirements or performance objectives will be considered ineligible for award, unless the deficiency is corrected through discussions. Proposals may be found to have either a significant weakness or multiple weaknesses that impact either the individual factor rating or the overall rating for the proposal. The evaluation report must document the evaluation board's assessment of the identified weakness(s) and the associated risk to successful contract performance resulting from the weakness(s). This assessment must provide the rationale for proceeding to award without discussions.

4. EVALUATION FACTORS FOR AWARD

4.1. The solicitation requires the evaluation of price and the following non-price factors:

- Factor 1 – Experience
- Factor 2 – Safety
- Factor 3 – Management Approach
- Factor 4 – Past Performance

The distinction between experience and past performance is that experience pertains to the volume of work completed by a contractor that are comparable to the types of work described under the definition of recent, relevant projects, in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

4.1.1. The relative order of importance of the non-price evaluation factors is equal. The technical factors (Factors 1 through 3) are of equal importance to each other and, when combined, are equal in importance to the past performance evaluation/performance confidence assessment (Factor 4). When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (i.e., the non-price evaluation factors) are approximately equal to price.

4.1.2 The importance of price will increase if the Offerors' non-cost/price proposals are considered essentially equal in terms of overall quality, or if price is so high as to significantly diminish the value of a non-cost/price proposal's superiority to the Government. Award will be made to the responsible Offeror(s) whose offer conforms to the solicitation and represents the best value to the Government, price and non-price factors considered.

4.2 . Basis of Evaluation and Submittal Requirements for Each Factor.

(a) Price

(1) Solicitation Submittal Requirements:

Provide one (1) marked original, one (1) marked copy and one (1) electronic copy (CD format) of the solicitation submittal requirements identified below. The electronic copy does not have to include the price for the seed project; however, the price for the seed project must be included in the original and hard copies. In case of variation, the original hard copy proposal takes precedence over electronic or copies.

(i) Executed SF1442. Offeror shall insert its company name and address in Block #14, telephone number in Block #15, acknowledge all amendments in Block #19 (if applicable), name and title of person authorized to sign in Block #20A, signature in Block #20B, and offer date in Block #20C of the SF1442. In addition, Offeror shall provide its DUNS Number, CAGE code, and Federal Tax ID number with its proposal.

(ii) Completed Proposed Price for the Seed Project.

(iii) Bid bond (SF-24). Offeror shall submit a bid bond (SF-24) in the amount of 20% of total project bid price for the seed project or \$3M, whichever amount is less. The bid bond shall be in the name of the offeror identified on the SF1442. In addition, the offeror shall provide a letter from its bonding company confirming that it has a single award bonding capacity of at least \$10,000,000 and the ability to bond multiple projects.

(iv) SAM registration. Offeror shall ensure current registration on the SAM Website, www.sam.gov, including Annual Representations and Certifications are complete and updated for this procurement. If a Representation or Certification required by Section 00600 of the RFP is not provided in SAM, include the representation or certification in your price proposal.

(v) FAPIIS Certification. Offeror shall ensure Federal Awardee Performance and Integrity Information System (FAPIIS) Certification as required by FAR 52.209-7, Information Regarding Responsibility Matters.

(vi) VETS-4212 registration. Offeror shall ensure a current VETS-4212 report has been submitted to the Department of Labor (DOL) website, <http://www.dol.gov/vets/vets4212.htm>, if the Offeror is required to submit. An email confirmation of submission can be requested and received by the Offeror from the DOL website and submitted in the price proposal. If the Offeror is not required to submit a report to VETS-4212, include a brief statement and justification explaining why the Offeror is not required to submit a report. Visit the VETS-4212 website for details concerning if your company is required to submit a VETS-4212 report and to request an email confirmation of submission.

ADDITIONAL INFORMATION TO BE SUBMITTED WITH PRICE PROPOSAL PACKAGE:

RESPONSIBILITY DETERMINATION INFORMATION - In order to be eligible for award, the offeror must be determined responsible in accordance with FAR Part 9, specifically 9.104-1, General Standards. In a separate Tab, the offeror shall provide the following information in the price proposal package:

1. One (1) Signed Bank Reference demonstrating adequate financial resources. If offeror's firm has a line of credit – provide information on how many figures offeror can borrow against the line of credit (i.e. medium 6 figures – exact line of credit is not required).

2. The offeror shall provide the latest three complete fiscal year financial statements for the prime contractor, certified by an independent accounting firm, if practicable, or signed by an authorized officer of the organization. Submit evidence of availability of working/operating capital, which will be used for the performance of the resultant contract. For Joint Venture arrangements, submit the latest three complete fiscal year financial statements for each company in the Joint Venture and discuss the financial responsibilities among the companies. The Government may also utilize Dun & Bradstreet reports to evaluate the financial capacity of the offeror.

3. Description of offeror's facilities and equipment.

4. Other offeror's work presently under contract.

Although required to be submitted with offeror's price proposal, this information will not be evaluated as part of the price proposal. This information forms the basis of your firm's responsibility determination should your firm be considered for award. Proposal packages from unsuccessful offerors will not be returned to the offeror, but shall be destroyed by the Contracting Officer. No certificate of destruction will be issued.

(2) Basis of Evaluation: The Government will evaluate price based on the total price for the seed project. Total price consists of the basic requirements and all option items, if applicable. The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in the solicitation. In accordance with FAR 52.217-5, evaluation of options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

- (i) Comparison of proposed prices received in response to the RFP.
- (ii) Comparison of proposed prices with the IGCE.
- (iii) Comparison of proposed prices with available historical information.
- (iv) Comparison of market survey results.

(b) Non-cost/price Factors:

The offeror shall submit one original, marked "Original", five copies marked "copy", each in a separate three-ring binder (1.5 inch. maximum), and one electronic copy on CD with the following characteristics:

- Text pages 8 ½ x 11 format
- Drawings 11x17 inches and folded down to 8-1/2 x 11 inches
- 12 point font, Times New Roman
- One complete electronic copy of the technical proposal factors as a single .pdf searchable file on a CD-ROM (include with the "Original" technical submission). If there are any conflicts between hard copies and/or electronic copies, the "Original" hard copy will govern.
- Include a cover page with Solicitation Number, Solicitation Title, Prime Contractor Name, Address, Phone Number, Fax Number, DUNS, Cage Code, Point of Contact, Title, phone number, and email address.

Factor 1 – Experience:**(i) Solicitation Submittal Requirements:**

The Offeror shall submit the following information:

(1) Construction Experience:

Submit a minimum of three (3) up to a maximum of five (5) relevant construction projects for the Offeror that best demonstrates your experience on relevant projects that are similar in size, scope, and complexity to the projects proposed for this MACC. For purposes of this evaluation, a relevant project is further defined as:

Size: A final construction cost of \$4,000,000 or greater. At least one (1) project must have a final construction cost of \$10,000,000 or greater.

Scope/Complexity: Individual projects shall demonstrate experience with at least one of the following:

- New building construction of a building(s)
- Interior/exterior alteration or renovation of a building(s) that include repairs to multiple building systems and infrastructures.

Note: Projects submitted that only include horizontal, civil site work, single-system work, or demolition will not be considered relevant.

Additionally, submitted relevant projects shall, cumulatively, demonstrate the following characteristics:

- a) Offerors shall have acted as the prime contractor on submitted projects. Offeror's experience performing as subcontractor will not be considered, nor will experience of companies proposed to work as subcontractors on the awarded contract.
- b) Experience with both new construction (at least one (1) project) and renovation (at least one (1) project).
- c) Experience with design-build (at least one (1) project).

Projects submitted for the Offeror must have been completed within the previous five (5) years of the proposal due date for this RFP. If discussions are required, the due date of initial proposals will be the date used to determine if projects were completed "within the previous five (5) years of the proposal due date of this RFP," not any revised proposal due date.

A project is defined as a construction project performed under a single task order or contract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project and will not be considered; rather, Offerors shall submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment A) is MANDATORY and SHALL be used to submit project information. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one (1) double-sided page (or two (2) single-sided pages).

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this RFP (i.e.: unique features, area, construction methods). In addition, the description should also address any sustainable features for the project, including specific descriptions of those features. Clearly identify the LEED rating level for projects that are certified by the U.S. Green Building Council (USGBC) or equivalent organization. Also identify if the project is LEED "Self Certified" or "Sustainable Validated" project (i.e. those that were not able to achieve LEED certification).

If the Offeror is a Joint Venture (JV), relevant project experience should be submitted for projects completed by the Joint Venture entity. If the Joint Venture does not have shared experience, projects may be submitted for the JV

members. Offerors who fail to submit experience for all JV members may be rated lower. Offerors are still limited to a total of five (5) projects combined. For a JV, the offeror shall submit the signed JV agreement. For 8(a) Mentor-Protégé Joint Ventures, the offeror shall submit the signed and U.S. Small Business Administration (SBA) approved Mentor-Protégé agreement.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract.

Experience of proposed subcontractors will not be considered for construction experience.

(2) Design Experience

Both design-build and design-build projects may be contemplated under this MACC. Therefore, the Offeror is required to address the design firm to be proposed on the seed project and anticipated future projects. Offerors shall clearly state the Architect-Engineer firm that is proposed to be utilized as the Designer of Record (DOR) for the seed project and future task orders under this MACC. Provide the full name of the firm, address, DUNS number, and CAGE code. The designated firm will be required to be utilized as the DOR on future design-build task orders under the resulting MACC, unless a substitution is approved by the Contracting Officer for the proposed task order. The Offer must provide a supporting signed joint venture agreement, partnership agreement, teaming agreement, or letter of commitment with the Architect-Engineer firm that is proposed to be utilized as the Designed of Record (DOR).

Submit a minimum of three (3) up to a maximum of five (5) relevant performed by the proposed Designer Of Record that best demonstrates your experience in a diverse range of design tasks similar in size, scope and complexity to the projects proposed for this MACC.

For purposes of this evaluation, a relevant project is further defined as:

Size: A final construction cost of \$4,000,000 or greater. At least one (1) project must have a final construction cost of \$10,000,000 or greater.

Scope/Complexity: Individual projects shall demonstrate experience with at least one of the following:

- New building construction of a building(s)
- Interior/exterior alteration or renovation of a building(s) that include repairs to multiple building systems and infrastructures.

Note: Projects submitted that only include horizontal, civil site work, single-system work, or demolition will not be considered relevant.

Additionally, submitted relevant projects shall, cumulatively, demonstrate the following characteristics:

- a) Experience as the designer of record on all submitted projects.
- b) Experience with both new construction (at least one (1) project) and renovation (at least one (1) project).
- c) Experience with design-build (at least one (1) project).

Projects submitted for the Offeror must have been completed within the previous five (5) years of the proposal due date for this RFP. If discussions are required, the due date of initial proposals will be the date used to determine if projects were completed “within the previous five (5) years of the proposal due date of this RFP,” not any revised proposal due date.

For design-build projects, the design portion of the contract shall have been completed within the previous five (5) years of the proposal due date of this RFP. The design completion date shall be clearly stated on the Construction & Design Experience Project Data Sheet (Attachment A).

A project is defined as a complete design effort performed under a single task order or contract/subcontract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; rather Offerors shall submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment C) is MANDATORY and SHALL be used to submit project information. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one (1) double-sided page (or two (2) single-sided pages).

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this RFP (i.e.: unique features, area, construction methods). In addition, the description should also address any sustainable features for the project, including specific descriptions of those features. The Offeror shall provide applicable documentation on projects that were validated and/or certified through U.S. Green Building Council (USGBC) or the equivalent organization or process.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract. If meaningful involvement is not demonstrated, experience of the affiliate/subsidiary/parent firm will not be considered.

The Offeror may utilize experience of a design subcontractor as the Designer of Record in order to demonstrate design experience under this evaluation factor. The Offer must provide a supporting joint venture agreement, partnership agreement, teaming agreement, or letter of commitment (from and signed by the proposed design firm) and an explanation of the meaningful involvement for the design subcontractor. If the agreement/letter is not provided or meaningful involvement is not demonstrated, experience of the proposed designer will not be considered.

(ii) Basis of Evaluation:

The basis of evaluation will include the Offeror's demonstrated experience and depth of experience in performing relevant construction and design projects as defined in the solicitation submittal requirements. The assessment of the Offeror's relevant experience will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the RFP. The Government will only review five projects for construction and five for design. Any projects submitted in excess of the five (5) for Construction Experience and five (5) for Design Experience will not be considered.

Relevant projects where the Offeror and the proposed design firm(s) have previously worked together may receive a higher rating than those that have not worked together.

Relevant projects that demonstrate design-build experience may receive a higher rating than those that do not have design-build experience.

Relevant projects that demonstrate experience with sustainable features may receive a higher rating than those that do not demonstrate experience with sustainable features.

Relevant projects that demonstrate the ability to perform multiple projects simultaneously may be considered more favorably than those who do not have experience performing multiple simultaneous projects.

Factor 2- Safety

(a) Solicitation Submittal Requirements:

The Offeror shall submit the following information: (For a partnership or joint venture, the following submittal requirements are required for each contractor who is part of the partnership or joint venture; however, only one safety narrative is required. EMR, DART and TRC Rates shall not be submitted for subcontractors.)

- (1) Experience Modification Rate (EMR): Include three previous complete calendar years' worth of data. This rate compares company's annual losses in insurance claims against its policy premiums. The offeror may submit an insurance company-provided equivalent rate if no EMR exists. If the offeror has no EMR or premium, for any year, affirmatively state so and explain why. Any extenuating circumstances that affect the EMR and negative trends should be addressed as part of the factor submission.
- (2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate: Submit three previous complete calendar years' worth of data. If an offeror cannot submit an OSHA DART, for any year, affirmatively state so and an explanation must be provided. Any extenuating circumstances that affected the OSHA DART rate data negatively must be addressed as part of this factor submission.
- (3) OSHA Total Recordable Case Rate: OSHA Total Recordable Case (TRC) Rate: Submit three previous complete calendar years' worth of data. If an offeror cannot submit an OSHA TRC rate, for any year, affirmatively state so and an explanation must be provided. Any extenuating circumstances that affected the OSHA TRC rate data negatively must be addressed as part of this factor submission.
- (4) Technical Approach for Safety: Provide a narrative that addresses the following:
 - Describe the plan for safety that will be implemented to evaluate safety performance of potential subcontractors as part of the selection process for all levels of subcontractors.
 - Describe the safety management system that they will use to oversee the safety compliance and performance of self-performed and subcontractor performed work.
 - Describe any innovative methods that will be employed to ensure and monitor safe work practices at self-performed and/or all subcontractor levels.
 - Describe the methodology to execute an effective program that facilitates sound mishap prevention techniques and processes, employee reporting of unsafe conditions, unsafe activities, and near-miss mishaps.

Note: The narrative shall be limited to two pages (two single sided pages or one double-sided page). For a partnership or joint venture, the submittal requirements are required for each contractor who is part of the partnership or joint venture; however, only one safety narrative is required.

(b) Basis of Evaluation:

The evaluation will collectively consider the following:

- Experience Modification Rate (EMR)
 - OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART)
 - OSHA Total Recordable Case (TRC) Rates
 - Offeror Technical Approach to Safety
 - Other sources of information available to the Government
- (1) Experience Modification Rate (EMR): For the three previous complete calendar years the offeror will submit EMR. If no EMR exists, the offeror may submit an insurance company-provided equivalent rate explaining why not. If an insurance company-provided equivalent rate is provided, it will be treated the same as an EMR. Any extenuating circumstances that affected the EMR and negative trends should be addressed as part of this selection factor. The board will evaluate the EMR to determine if the Offeror has demonstrated a history of safe work practices taking into account any negative trends and extenuating circumstances that impact the rating.
 - (2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate: Submit three previous complete calendar years' worth of data. If an offeror cannot submit an OSHA DART rates, for any year, affirmatively state so and an explanation must be provided. If unable to submit OSHA DART rates, affirmatively state so, and an

explanation must be provided. Any extenuating circumstances that affected the OSHA DART rate data and negative trends should be addressed as part of this element. The board will evaluate the OSHA TRC rates to determine if the Offeror has demonstrated a history of safe work practices taking into account any upward trends and extenuating circumstances that impact rates.

- (3) OSHA Total Recordable Case (TRC): Submit three previous complete calendar years' worth of data. If an offeror cannot submit an OSHA TRC rate, for any year, affirmatively state so and an explanation must be provided. Any For the three previous complete calendar years, the offeror will submit their OSHA TRC as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If unable to submit OSHA TRC rates, affirmatively state so, and an explanation must be provided. Any extenuating circumstances that affected the OSHA TRC rate data and negative trends should be addressed as part of this element. The board will evaluate the OSHA TRC rates to determine if the Offeror has demonstrated a history of safe work practices taking into account any upward trends and extenuating circumstances that impact rates.
- (4) Technical Approach to Safety: The offeror will describe their plan to evaluate their safety performance and that of potential subcontractors. Also, describe any innovative methods that the Offeror will employ to ensure and monitor safe work practices at all subcontractor levels. The Safety Narrative shall be limited to two pages. The board will evaluate the narrative to determine the degree to which subcontractor safety performance will be considered in the selection of all levels of subcontractors on the upcoming project. The board will evaluate the narrative to determine the degree to which innovations are being proposed that may enhance safety on this procurement and validate the contractor has addressed methodology to be used in the execution of an effective program that facilitates sound mishap prevention techniques/processes, employee reporting of unsafe conditions, unsafe activities, and near-miss mishaps. Those Offerors whose plan demonstrates a commitment to hire subcontractors with a culture of safety and who propose innovative methods to enhance a safe working environment may be given greater weight in the evaluation.
- (5) Other Sources of Information Available to the Government: Other sources for safety may include but are not limited to OSHA data, NAVFAC's Contractor Incident Reporting System (CIRS) in Enterprise Safety Applications Management System (ESAMS), Contractor Performance Assessment Reporting System (CPARS) and other related databases.

Factor 3-Management Approach:

(a) Solicitation Submittal Requirements:

Offeror shall submit a detailed Management Approach describing how the offeror intends to successfully complete the work awarded under this MACC. The narrative plan shall not exceed five (5) pages (pages beyond the five (5) page limit will not be considered) and, at a minimum, address the following:

- Offeror's strategy for successful execution of work awarded under resulting contract, managing multiple concurrent projects, and managing the geographic coverage of the contract requirements.
- Offeror's plan for accomplishing the varied scope of work (Design-Build and Design-Bid-Build (fully designed)) for general construction projects.
- The offeror shall provide the roles, responsibilities, and contractual relationships between the various firms they will perform with under this contract. The narrative shall also include a simple organizational chart that clearly identifies the lines of authority between the entities.
- Offeror's plan for responding to proposed task orders that may have short response times or are solicited simultaneously.

(b) Basis of Evaluation:

The narrative will be evaluated to determine whether the offeror's management approach will contribute to successful performance for this contract. Proposals providing greater detail and demonstrating a greater

understanding of the requirements, as outlined above, may be rated higher. Failure to address all elements set out above will render the proposal unacceptable.

Factor 4-Past Performance:

(a) Solicitation Submittal Requirements:

If a completed Construction Contractor Appraisal Support System (CCASS) evaluation or Contractor Performance Assessment Reporting System (CPARS) evaluation is available, it shall be submitted with the proposal for each project included in Factor 1 for Construction Experience. If a completed AE Contractor Appraisal Support System (ACASS) evaluation or CPARS is available, it shall be submitted with the proposal for each project included in Factor 1 for Design Experience. If there is not a completed CCASS, ACASS, or CPARS evaluation then the offeror shall submit Past Performance Questionnaires (Attachment B) for each project included in Factor 1 for both Construction Experience and Design Experience. The Offeror should provide completed Past Performance Questionnaires (PPQ) in the proposal. Offerors shall not incorporate by reference into their proposal PPQs previously submitted for other RFPs. Offerors are permitted to provide copies of previously completed Past Performance Questionnaires (PPQs) in their proposal. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation. If the Offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the Offeror shall complete and submit with the proposal the first page of the PPQ, which must provide contract and client information for the respective project(s). The Government may make reasonable attempts to contact the client noted for that project(s) to obtain the PPQ information. However, Offerors should follow-up with clients/references to help ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Sidnia Finke, sidnia.finke@navy.mil.

Offerors are strongly encouraged to provide any information on problems encountered and the corrective actions taken on projects submitted under Factor 1 – Experience. Offerors are also strongly encouraged to address any adverse past performance issues. Explanations shall not exceed two (2) double-sided pages (or four (4) single-sided pages) in total.

The Government reserves the right to contact references for verification or additional information. The Government's inability to contact any of the Offeror's references or the references unwillingness to provide the information requested may affect the Government's evaluation of this factor.

Performance awards or additional information submitted will not be considered.

(b) Basis of Evaluation:

This evaluation focuses on how well the Offeror performed on the relevant projects submitted under Factor 1 – Experience and past performance on other projects currently documented in known sources. More emphasis will be placed on more relevant projects. In addition to the above, the Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using all CAGE/DUNS numbers of Contractors who are part of a partnership or joint venture identified in the Offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the Offeror.

The Government will consider the currency and relevance of the information, the source of the information, context of the data, and general trends in the Contractor's performance. This evaluation is separate and distinct from the Contracting Officer's responsibility determination. The assessment of the Offeror's past performance will be used as a means of evaluating the Offeror's probability to successfully meet the requirements of the RFP.

Offerors lacking relevant past performance history will not be evaluated favorably or unfavorably in past performance and will receive an Unknown Confidence rating.

As the level of security heightens, the amount of time required to gain access to the Naval Station increases. Early arrival is advised.

Submission of a pass request form is no guarantee you will be able to get on the base. If for any reason you get to the gate and are not allowed onto the base (even if you have submitted a request form), you will need to find another

way to get your proposal delivered. Government personnel may not be able to sponsor you on base to deliver your proposal. Ultimately, it is the contractor's responsibility to ensure timely proposal submission to the specified location. Due to heightened security, it is recommended that you allow sufficient time to get into the building and turn in your proposal. The submitted pass request only allows access on the proposal due date. If the proposal due date is extended, the Government will revise the date on the pass request. Submission of a new pass request form is not necessary. Additionally, other postings will be made to NECO, such as the pre-proposal inquiries (PPI) log, revised drawings, etc., under the Additional Documents section of the RFP. Postings to the Additional Documents section of NECO DO NOT generate an automated email to contractors. It is recommended contractors check the NECO Additional Documents section of the RFP periodically to see if additional postings have been made. It is the contractor's responsibility to check NECO for all postings.

5.5 INCORPORATION OF TECHNICAL PROPOSAL

The Contractor's technical proposal, including revisions and amendments, made prior to contract award and a copy of which is in the possession of both parties, will be incorporated into this contract upon award by reference with the same force and effect as if set forth in full text. All contractor personnel shall meet or exceed the qualification standards, experience levels and trade background set forth in the technical proposal. 52.215-1 INSTRUCTIONS TO OFFERORS--COMPETITIVE ACQUISITION (JAN 2017)

(a) Definitions. As used in this provision--

“Discussions” are negotiations that occur after establishment of the competitive range that may, at the Contracting Officer's discretion, result in the offeror being allowed to revise its proposal.

“In writing or written” means any worded or numbered expression which can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

“Proposal modification” is a change made to a proposal before the solicitation's closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

“Proposal revision” is a change to a proposal made after the solicitation closing date, at the request of or as allowed by a Contracting Officer as the result of negotiations.

“Time”, if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) Amendments to solicitations. If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time specified in the amendment(s).

(c) Submission, modification, revision, and withdrawal of proposals. (1) Unless other methods (e.g., electronic commerce or facsimile) are permitted in the solicitation, proposals and modifications to proposals shall be submitted in paper media in sealed envelopes or packages (i) addressed to the office specified in the solicitation, and (ii) showing the time and date specified for receipt, the solicitation number, and the name and address of the offeror. Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i) and (c)(1)(ii) of this provision.

(2) The first page of the proposal must show--

(i) The solicitation number;

(ii) The name, address, and telephone and facsimile numbers of the offeror (and electronic address if available);

(iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;

(iv) Names, titles, and telephone and facsimile numbers (and electronic addresses if available) of persons authorized to negotiate on the offeror's behalf with the Government in connection with this solicitation; and

(v) Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.

(3) Submission, modification, or revision, of proposals.

(i) Offerors are responsible for submitting proposals, and any modifications, or revisions, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposal or revision is due.

(ii)(A) Any proposal, modification, or revision received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(1) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(2) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(3) It is the only proposal received.

(B) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(iii) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(v) Proposals may be withdrawn by written notice received at any time before award. Oral proposals in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award, subject to the conditions specified in the provision at 52.215-5, Facsimile Proposals. Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.

(4) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(5) Offerors shall submit proposals in response to this solicitation in English, unless otherwise permitted by the solicitation, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in the solicitation.

(6) Offerors may submit modifications to their proposals at any time before the solicitation closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(d) Offer expiration date. Proposals in response to this solicitation will be valid for the number of days specified on the solicitation cover sheet (unless a different period is proposed by the offeror).

(e) Restriction on disclosure and use of data. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall--

(1) Mark the title page with the following legend: This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed--in whole or in part--for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of--or in connection with-- the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [insert numbers or other identification of sheets]; and

(2) Mark each sheet of data it wishes to restrict with the following legend: Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) Contract award.

(1) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the solicitation.

- (2) The Government may reject any or all proposals if such action is in the Government's interest.
- (3) The Government may waive informalities and minor irregularities in proposals received.
- (4) The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). Therefore, the offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.
- (5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.
- (6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.
- (7) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.
- (8) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.
- (9) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.
- (10) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.
- (11) If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:
- (i) The agency's evaluation of the significant weak or deficient factors in the debriefed offeror's offer.
 - (ii) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.
 - (iii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.
 - (iv) A summary of the rationale for award.
 - (v) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.
 - (vi) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities were followed by the agency.

(End of clause)

52.216-19 ORDER LIMITATIONS (OCT 1995)

- (a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than **\$50,000**, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.
- (b) Maximum order. The Contractor is not obligated to honor -

(End of clause)

52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within 1 day of contract expiration; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 5 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 60 months.

(End of clause)

52.219-6 NOTICE OF TOTAL SMALL BUSINESS SET-ASIDE (NOV 2011)

(a) Definition.

"Small business concern," as used in this clause, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the size standards in this solicitation.

(b) Applicability. This clause applies only to--

(1) Contracts that have been totally set aside or reserved for small business concerns; and

(2) Orders set aside for small business concerns under multiple-award contracts as described in 8.405-5 and 16.505(b)(2)(i)(F).

(c) General. (1) Offers are solicited only from small business concerns. Offers received from concerns that are not small business concerns shall be considered nonresponsive and will be rejected.

(2) Any award resulting from this solicitation will be made to a small business concern.

(d) Agreement. A small business concern submitting an offer in its own name shall furnish, in performing the contract, only end items manufactured or produced by small business concerns in the United States or its outlying areas. If this procurement is processed under simplified **acquisition** procedures and the total amount of this contract does not exceed \$25,000, a small business concern may furnish the product of any domestic firm. This paragraph does not apply to construction or service contracts.

(End of clause)

52.219-28 POST-AWARD SMALL BUSINESS PROGRAM REREPRESENTATION (JULY 2013)

(a) Definitions. As used in this clause--

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a

cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause. Such a concern is ``not dominant in its field of operation" when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(b) If the Contractor represented that it was a small business concern prior to award of this contract, the Contractor shall rerepresent its size status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon the occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts--

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code assigned to this contract. The small business size standard corresponding to this NAICS code can be found at <http://www.sba.gov/content/table-small-business-size-standards>.

(d) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

The Contractor represents that it () is, () is not a small business concern under NAICS Code **236220**- assigned to contract number **N4008518R1111**.

(Contractor to sign and date and insert authorized signer's name and title).

(End of clause)

52.225-9 BUY AMERICAN—CONSTRUCTION MATERIALS (MAY 2014)

(a) Definitions. As used in this clause--

Commercially available off-the-shelf (COTS) item—

(1) Means any item of supply (including construction material) that is--

(i) A commercial item (as defined in paragraph (1) of the definition at FAR 2.101);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4) such as agricultural products and petroleum products.

Component means an article, material, or supply incorporated directly into a construction material.

Construction material means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means--

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

Domestic construction material means--

(1) An unmanufactured construction material mined or produced in the United States;

(2) A construction material manufactured in the United States, if--

(i) The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic; or

(ii) The construction material is a COTS item.

Foreign construction material means a construction material other than a domestic construction material.

United States means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference.

(1) This clause implements 41 U.S.C. chapter 83, Buy American, by providing a preference for domestic construction material. In accordance with 41 U.S.C. 1907, the component test of the Buy American statute is waived for construction material that is a COTS item. (See FAR 12.505(a)(2)). The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

(2) This requirement does not apply to information technology that is a commercial item or to the construction materials or components listed by the Government as follows:

(3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American Act is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American Act to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American Act. (1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including--

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars) \1\
Item 1			
Foreign construction material....
Domestic construction material...
Item 2			
Foreign construction material....
Domestic construction material...

Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).

List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.

Include other applicable supporting information.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

(End of clause)

52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES (APR 1984)

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.

(b) The use in this solicitation or contract of any Department of Defense Federal Acquisition Regulation Supplement (DFARS) (48 CFR Chapter 2) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of clause)

252.203-7004 DISPLAY OF HOTLINE POSTERS (OCT 2016)

Additional bond security may be required as prescribed in FAR 52.228-2. Bonds shall be accompanied by a document authenticating the agent's authority to sign bonds for the surety company.

(c) The contract time for purposes of fixing the completion date, default and liquidated damages shall begin to run **15** days from the date of award, regardless of when performance and payment bonds or deposits in lieu of surety are executed.

5252.236-9301 SPECIAL WORKING CONDITIONS AND ENTRY TO WORK AREA (OCT 2004)

The Government under certain circumstances may require denial of entry to the work areas under this contract where the Contractor's work or presence would constitute a safety or security hazard to ordnance storage or handling operations. Restrictions covering entry to and availability of the work areas are as follows:

(a) Entry. Entry to work areas located within the special Security Limited areas, defined as those work areas located within the existing security fence, can be granted subject to special personnel requirements as specified herein and to other normal security and safety requirements. Complete denial of entry to the Limited Area may be required during brief periods of one to two hours (normally) and on rare occasions of two to four hours. For bidding purposes, the Contractor shall assume denial of entry to the work areas in the Limited Area of six 2-hour denials and one 4-hour denial per month.

(b) Vehicle Delay. The Contractor shall also assume for bidding purposes that, in addition to site denial, each vehicle and/or unit of construction equipment will be delayed during each movement through the security gate, both entering and leaving the limited area. Delays will average **based upon the base installation security level**.

(b) Operational Considerations. To reduce delay time while preserving required security, the following points should be considered in operational planning:

(1) Vehicle Search. Security regulations required that all vehicles, when authorized to enter the Limited Area be thoroughly searched by guard force personnel. Such a search will be required for all vehicle/ construction equipment. Accordingly, once a vehicle or unit of construction equipment has

been cleared, it may be left in the Limited Area after initial entry has been made. For the period of time authorized the vehicle/equipment left in the Limited Area will be assigned parking areas by the Contracting Officer. The vehicle/equipment must be secured as specified in paragraph entitled "SECURITY REQUIREMENTS." The intent is to reduce the Contractor loss of time at the security gate. No private vehicles will be allowed to enter the Limited Area.

(2) Delivery Vehicles. Guard force personnel will inspect vehicles delivering construction materials while the driver is being processed for entry into the Limited Area.. A Security Escort will then escort the driver and vehicle in the Limited Area. To provide this service, delivery schedules should be promulgated in advance and vendors made aware that a reasonable delay can be expected if delivery is other than the time specified. Deliveries after 1600 hours will not be allowed entry into the Limited Area without prior approval of the Physical Security Officer.

5252.236-9310 Record Drawings ALT II (OCT 2004)

Requests for partial payments will not be approved if the marked prints are not kept current, and request for final payment will not be approved until the marked prints are delivered to the Contracting Officer.”

5252.236-9312 DESIGN-BUILD CONTRACT- ORDER OF PRECEDENCE (AUGUST 2006)

As prescribed in 36.5100(g), insert the following clause:

(A) In the event of a conflict or inconsistency between any of the below described portions of the conformed contract, precedence shall be given in the following order:

- (1) Any portions of the proposal or final design that exceed the requirements of the solicitation.
 - (a) Any portion of the proposal that exceeds the final design.
 - (b) Any portion of the final design that exceeds the proposal.

5252 Where portions within either the proposal or the final design conflict, the portion that most exceeds the requirements of the solicitation has precedence.
- (2) The requirements of the solicitation, in descending order of precedence:
 - (a) Standard Form 1442, Price Schedule, and Davis Bacon Wage Rates.
 - (b) Part 1 - Contract Clauses.
 - (c) Part 2 - General Requirements.
 - (d) Part 3 - Project Program Requirements.
 - (e) Part 6 - Attachments (excluding Concept Drawings).
 - (f) Part 5 - Prescriptive Specifications exclusive of performance specifications.
 - (g) Part 4 - Performance Specifications exclusive of prescriptive specifications.
 - (h) Part 6 - Attachments (Concept Drawings).

(B) Government review or approval of any portion of the proposal or final design shall not relieve the contractor from responsibility for errors or omissions with respect thereto.

(END OF CLAUSE)

5252.236-9313 DESIGN-BUILD CONTRACT – INCORPORATION OF DESIGNER OF RECORD
FINAL DESIGN (JUL 2008)

Upon Government receipt and acceptance of the Designer of Record signed and stamped final design submission for all work, a no-cost unilateral modification shall be issued to incorporate the final design into the contract.

If the Contractor is authorized to proceed with portions of the work prior to the completion of a final design for all work, a no-cost unilateral modification shall be issued for each Government accepted Designer of Record signed and stamped design submission for each portion of the work in order to incorporate that design submittal into the contract. (End of clause)

5252.242-9305, PRE-PERFORMANCE CONFERENCE (JUL 1995)

Within 15 days of contract award, prior to commencement of the work, the Contractor will meet in conference with representatives of the Contracting Officer, at a time to be determined by the Contracting Officer, to discuss and develop mutual understanding relative to scheduling and administering work.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within

the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
