1. GENERAL**1.1 NOTICE TO OFFERORS**

1.1.1 THIS SOLICITATION IS BEING ISSUED AS A ONE HUNDRED (100) PERCENT SET-ASIDE FOR SMALL BUSINESS. THE NAICS CODE FOR THIS PROCUREMENT IS 236220 AND THE SIZE STANDARD IS \$39.5M.

1.2 GENERAL OVERVIEW OF PROCUREMENT PROCESS

1.2.1 This solicitation is formatted as a Request for Proposal (RFP) in accordance with the requirements designated by sections of the FAR 15.203. This method permits evaluation of proposals based on price competition, technical merit and other factors; permits impartial and comprehensive evaluation of offerors' proposals; permits discussions if necessary; and ensures selection of the source whose performance provides the best value to the Government. This acquisition will be solicited as a competitively negotiated procurement.

1.2.2 The Government reserves the right to reject any or all proposals at any time prior to award; to negotiate with any or all offerors; to award the contracts to other than the offeror submitting the lowest total price; to award to other than the offeror submitting the highest technically rated proposal; and to award to the offeror submitting the proposal determined by the Government to be the most advantageous (best value) to the Government. OFFERORS ARE ADVISED THAT AWARD MAY BE MADE WITHOUT DISCUSSION OR ANY CONTACT CONCERNING THE PROPOSALS RECEIVED. Therefore, proposals should be submitted initially on the most favorable price and technical terms. Offerors should not assume that they will be contacted or afforded an

opportunity to qualify, discuss, or revise their proposals. However, the Government reserves the right to clarify certain aspects of proposals or conduct discussions providing an opportunity for the offeror to revise its proposal.

1.3 GENERAL OVERVIEW OF CONTRACT

1.3.1. This acquisition will result in the award of up to six (6) Design-Bid-Build, Indefinite-Delivery/Indefinite Quantity (IDIQ) Multiple Award Construction Contracts (MACC), unless the Contracting Officer determines it is in the Government's best interest to exceed this number, for the Marine Corps Installation East Area of Responsibility for new construction, renovations, alterations, and repairs for general construction projects.

1.3.2. The resulting contracts will provide for new construction, demolition, repair, alteration, and renovation of buildings, systems and infrastructure, primarily located at Marine Corps Installations East (MCI East). The proposed seed project for this solicitation is titled Interior/Exterior Repairs, Bldg. AS124, Marine Corps Air Station New River, and the estimated construction cost for this project is \$1,000,000 to \$5,000,000. Task orders under the MACC will be design-bid-build. Work will be primarily performed at Marine Corps Base Camp Lejeune (including the New River Air Station and other related facilities) and Marine Corps Air Station Cherry Point. However, it may also be performed at other military and government installations/sites under the Marine Corps Installation East Area of Responsibility.

1.3.3 The seed project will have a contract completion date of 450 days after contract award. The period of performance for this MACC will be a base year and four (4) one-year option periods for a total performance period of five years, or an aggregate maximum value of \$249,000,000 for all combined contracts, whichever comes first. Projects for the MACC have an estimated construction cost between \$150,000.00 and \$10,000,000.00; however, smaller and larger dollar value projects may be considered at the discretion of the Contracting Officer. The Government guarantees an award amount of \$5,000.00 to each successful offeror over the full term of the contract, including option years.

1.3.4 After award of the initial contracts and "seed" project, the successful IDIQ contractors will compete for task orders based on best value, using the tradeoff process or lowest price technically acceptable (to include lowest price). Only the successful IDIQ contractors will compete for task orders. Should an IDIQ contractor with a guaranteed minimum be unable to competitively secure a task order to meet the \$5,000 minimum guarantee, the Government reserves the right to negotiate a task order directly with that contractor.

1.3.5 The intent of this contract is that all IDIQ Contractors participate in pre-proposal conferences and site-visits and submit proposals on each task order. Contract awardees will be expected to submit a proposal for all Task Order Requests for Proposal (RFP) received from the Government. However, in the event a MACC awardee is unable to submit a proposal on a particular RFP, the contractor is required to notify, in writing, the Contracting Officer who issued the RFP and the ACO for the basic contract within five (5) working days from receipt of the RFP. A MACC awardee can only elect to withdraw from submitting a proposal on three (3) task order RFPs during the course of each year of the contract (base plus four options). Additional withdrawal requests, in excess of three per contract year, may result in the Government choosing not to exercise remaining option terms.

1.3.6 Each task order will contain project specific evaluation factors that will vary depending on the unique requirements for each task order. Additionally, each task order will cite a specific completion date and associated liquidated damages.

1.3.7 Contractor Performance Information: Contractor's performance will be evaluated using the respective contractor performance evaluation report entry system located on the website <http://www.cpars.gov/>. Prior to commencement of work the contractor is required to provide the government with the name, phone number and e-mail address of the "Contractor's Representative" that will be responsible for receipt and review of draft

performance evaluations prepared by the government in the appropriate system. It is the contractor's responsibility to keep this contact information current.

2. GENERAL OVERVIEW OF THE SEED PROJECT

2.1 The initial project to be awarded as the first task order along with the basic contract will be Interior/Exterior Repairs, Bldg. AS124, Marine Corps Air Station New River, NC. This project will include new finishes, roof and wall panels, roofing, plumbing, HVAC, electrical, doors, windows, masonry work, painting, and incidental related work.

* Solicitation Section 01 00 00 will include the General Requirements for the seed project.

2.2 Pursuant to FAR 52.232-18, Availability of Funds, the Government's obligation under this solicitation, or any task order or contract that might result from the solicitation is entirely subject to, and contingent upon, the availability of appropriated funds. Should the Government be unable to award the seed project, the Government guarantees an award in the amount of \$5,000.00 to each successful offeror upon award of the Multiple Award Construction Contracts. This minimum guarantee is over the full term of the contract, including option years. No legal liability on the part of the Government shall arise until funds are made available to the Contracting Officer and a task order or contract is awarded by the Contracting Officer. Any offeror proposing on this solicitation does so at its own cost and with the full knowledge that a task order for the seed project, might not result from this solicitation.

3. BASIS FOR AWARD

1. The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contracts; to negotiate with offerors in the competitive range; and to award the contracts to the offerors submitting the proposals determined to represent the best value—the proposals most advantageous to the Government, price and other factors considered.

2. As stated in the solicitation, the Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

3. The tradeoff process is selected as appropriate for this acquisition. The Government considers it to be in its best interest to allow consideration of award to other than the lowest priced offeror or other than the highest technically rated offeror.

4. The relative order of importance of the non-price evaluation factors is that the technical factors (Factors 1 through 3) are of equal importance to each other and, when combined, are equal in importance to the past performance evaluation/performance confidence assessment (Factor 4). When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (i.e., the non-price evaluation factors) are of approximately equal importance to price.

5. Any proposal found to have a deficiency in meeting the stated solicitation requirements or performance objectives will be considered ineligible for award, unless the deficiency is corrected through discussions. Proposals may be found to have either a significant weakness or multiple weaknesses that impact either the individual factor rating or the overall rating for the proposal. The evaluation report must document the evaluation board's assessment

of the identified weakness(s) and the associated risk to successful contract performance resulting from the weakness(s). This assessment must provide the rationale for proceeding to award without discussions.

4. EVALUATION FACTORS FOR AWARD

1. The solicitation requires the evaluation of price and the following non-cost/price factors:

Factor 1 – Corporate Experience
 Factor 2 – Management Approach
 Factor 3 – Safety
 Factor 4 – Past Performance

The distinction between corporate experience and past performance is corporate experience pertains to the types of work and volume of work completed by a contractor that are comparable to the types of work covered by this requirement, in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

2. The relative order of importance of the non-price evaluation factors is that the technical factors (Factors 1 through 3) are of equal importance to each other and, when combined, are equal in importance to the past performance evaluation/performance confidence assessment (Factor 4). When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (i.e., the non-price evaluation factors) are of approximately equal importance to price.

The importance of price will increase if the Offerors' non-cost/price proposals are considered essentially equal in terms of overall quality, or if price is so high as to significantly diminish the value of a non-cost/price proposal's superiority to the Government. Award will be made to the responsible Offeror(s) whose offer conforms to the solicitation and represents the best value to the Government, price and non-price factors considered.

3. Basis of Evaluation and Submittal Requirements for Each Factor.

(a) Price

- (1) Solicitation Submittal Requirements:

Provide one (1) marked original, one (1) marked copy and one (1) electronic copy (CD format) of the solicitation submittal requirements identified below. The electronic copy does not have to include the price for the seed project; however, the price for the seed project must be included in the original and hard copies. In case of variation, the original hard copy proposal takes precedence over electronic or copies.

(i) Executed SF1442. Offeror shall insert its company name and address in Block #14, telephone number in Block #15, acknowledge all amendments in Block #19 (if applicable), name and title of person authorized to sign in Block #20A, signature in Block #20B, and offer date in Block #20C of the SF1442. In addition, Offeror shall provide its DUNS Number, CAGE code, and Federal Tax ID number with its proposal.

- (ii) Completed Proposed Price for the Seed Project.

(iii) Bid bond (SF-24). Offeror shall submit a bid bond (SF-24) in the amount of 20% of total project bid price for the seed project or \$3,000,000, whichever amount is less. The bid bond shall be in the name of the offeror identified on the SF1442. In addition, the offeror shall provide a letter from its bonding company confirming that it has a single award bonding capacity of at least \$5,000,000 and the ability to bond multiple projects.

(iv) SAM registration. Offeror shall ensure current registration on the SAM Website, www.sam.gov, including Annual Representations and Certifications are complete and updated for this procurement. If a Representation or Certification required by Section 00600 of the RFP is not provided in SAM, include the representation or certification in your price proposal.

(v) FAPIIS Certification. Offeror shall ensure Federal Awardee Performance and Integrity Information System (FAPIIS) Certification as required by FAR 52.209-7, Information Regarding Responsibility Matters.

(vi) VETS-4212 registration. An email confirmation of submission can be requested and received by the Offeror from the DOL website and submitted in the price proposal. If the Offeror is not required to submit a report to VETS-4212, include a brief statement and justification explaining why the Offeror is not required to submit a report. Visit the VETS-4212 website for details concerning if your company is required to submit a VETS-4212 report and to request an email confirmation of submission.

ADDITIONAL INFORMATION TO BE SUBMITTED WITH PRICE PROPOSAL PACKAGE:

RESPONSIBILITY DETERMINATION INFORMATION - In order to be eligible for award, the offeror must be determined responsible in accordance with FAR Part 9, specifically 9.104-1, General Standards. In a separate Tab, the offeror shall provide the following information in the price proposal package:

1. One (1) Signed Bank Reference demonstrating adequate financial resources. If offeror's firm has a line of credit – provide information on how many figures offeror can borrow against the line of credit (i.e. medium 6 figures – exact line of credit is not required).

2. The offeror shall provide the latest three complete fiscal year financial statements for the prime contractor, certified by an independent accounting firm, if practicable, or signed by an authorized officer of the organization. Submit evidence of availability of working/operating capital, which will be used for the performance of the resultant contract. For Joint Venture arrangements, submit the latest three complete fiscal year financial statements for each company in the Joint Venture and discuss the financial responsibilities among the companies. The Government may also utilize Dun & Bradstreet reports to evaluate the financial capacity of the offeror.

3. Description of offeror's facilities and equipment.

4. Other offeror's work presently under contract.

Although required to be submitted with offeror's price proposal, this information will not be evaluated as part of the price proposal. This information forms the basis of your firm's responsibility determination should your firm be considered for award. Proposal packages from unsuccessful offerors will not be returned to the offeror, but shall be destroyed by the Contracting Officer. No certificate of destruction will be issued.

(2) Basis of Evaluation: The Government will evaluate price based on the total price for the seed project. Total price consists of the basic requirement, any options, and any planned modifications. The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in the solicitation. In accordance with FAR 52.217-5, evaluation of options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

- (i) Comparison of proposed prices received in response to the RFP.
- (ii) Comparison of proposed prices with the IGCE.

- (iii) Comparison of proposed prices with available historical information.
- (iv) Comparison of market survey results.

(b) Non-cost/price Factors:

The offeror shall submit one original, marked “Original”, three copies marked “copy”, each in a separate three-ring binder (1.5 inch. maximum), and one electronic copy on CD with the following characteristics:

- ... Text pages 8 ½ x 11 format
- ... Drawings 11x17 inches and folded down to 8 ½ x 11 inches
- ... 12-point font, Times New Roman
- ... One complete electronic copy of the technical proposal factors as a single .pdf searchable file on a CD-ROM (include with the “Original” technical submission). If there are any conflicts between hard copies and/or electronic copies, the “Original” hard copy will govern.
- ... Include a cover page with Solicitation Number, Solicitation Title, Prime Contractor Name, Address, Phone Number, Fax Number, DUNS, Cage Code, Point of Contact, Title, phone number, and email address.

Factor 1 – Corporate Experience:

(i) Solicitation Submittal Requirements:

The Offeror shall submit the following information:

Submit a minimum of three (3) up to a maximum of five (5) relevant construction projects for the Offeror that best demonstrates your experience on relevant projects that are similar in size, scope, and complexity to the projects proposed for this MACC. For purposes of this evaluation, a relevant project is further defined as:

Size: A final construction cost of \$1,000,000 or greater. At least one (1) project must have a final construction cost of \$5,000,000 or greater.

Scope/Complexity: Individual projects shall demonstrate experience with at least one of the following:

- ... New building construction of a building(s).
- ... Interior/exterior alteration or renovation of a building(s) that include repairs to multiple building systems and infrastructures.

Note: Projects submitted that only include horizontal, civil site work, single-system work, or demolition will not be considered relevant.

In addition to meeting the above Size and Scope/Complexity requirements, Offerors shall have acted as the prime contractor on all submitted projects. Offeror’s experience performing as subcontractor will not be considered, nor will experience of companies proposed to work as subcontractors on the awarded contract.

Projects submitted for the Offeror must have been completed within the previous five (5) years of the date of issuance of this RFP.

A project is defined as a complete project performed under a single task order or contract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; rather Offerors shall submit the work performed under a task order as a project.

The attached Construction Experience Project Data Sheet (Attachment A) is MANDATORY and SHALL be used to submit project information. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one (1) double-sided page (or two (2) single-sided pages). Information beyond this page limit will not be considered.

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this RFP (i.e.: unique features, area, construction methods, self-performance). If the information provided does not clearly demonstrate how the project meets the above requirements, the project will be deemed not relevant.

If the Offeror is a Joint Venture (JV), relevant project experience should be submitted for projects completed by the Joint Venture entity. If the Joint Venture does not have shared experience, projects may be submitted for the JV members. Offerors who fail to submit experience for all JV members may be rated lower. Offerors are still limited to a total of five (5) projects combined. For a JV, the offeror shall submit the signed JV agreement. For 8(a) Mentor-Protégé Joint Ventures, the offeror shall submit the signed U.S. Small Business Administration (SBA) approved Mentor-Protégé agreement.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract. If meaningful involvement is not demonstrated, experience of the affiliate/subsidiary/parent firm will not be considered.

Experience of proposed subcontractors will not be considered for corporate experience. Likewise, the Offeror's experience as a subcontractor will not be considered.

(ii) Basis of Evaluation:

The basis of evaluation will include the Offeror's demonstrated experience and depth of experience in performing relevant construction projects as defined in the solicitation submittal requirements. The assessment of the Offeror's relevant experience will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the RFP. The Government will only review the first five projects. Any projects submitted in excess of the five (5) will not be considered.

Relevant projects that demonstrate the ability to perform multiple projects simultaneously may be considered more favorably than those who do not have experience performing multiple simultaneous projects.

Offerors who submit relevant projects that demonstrate experience self-performing relevant features of work may receive a higher rating than those who do not demonstrate self-performance.

Offerors whose relevant projects demonstrate a range/variety of new construction, repair, alteration, and renovation of buildings, systems and infrastructure may be considered more favorably.

Factor 2 – Management Approach:

(i) Solicitation Submittal Requirements:

Offeror shall submit a detailed Management Approach describing how the offeror intends to successfully complete the work awarded under this MACC. The narrative plan, at a minimum, shall address the following:

... Describe the company's labor force, including skill levels; equipment (rented or owned);

- ... Describe the types of work to be self-performed and the types of work to be subcontracted;
- ... Provide a general summary of the proposed quality management system and the minimum quality controls to be used to ensure compliance during contract performance;
- ... Provide historical information on the company's primary area of trade expertise.

The management approach narrative shall be limited to two (2) double-sided pages (or four (4) single-sided pages). Pages beyond the limit will not be considered.

(ii) Basis of Evaluation:

The assessment of the Offeror's management approach will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the RFP and determine if the Offeror has the necessary technical capability to perform the subject requirements. This factor will be rated on an Acceptable or Unacceptable basis. Offerors that are rated Unacceptable will be found ineligible for award.

Factor 3 – Safety

(i) Solicitation Submittal Requirements: The Offeror shall submit the following information: The Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate; and Total Case Rate (TCR) for the specified five (5) Calendar Years (CY), as well as a safety narrative, as described further below. For a partnership or joint venture, the Offeror shall submit separate DART rates and TCR for the specified five (5) CY for each contractor who is part of the partnership/joint venture; however, only one safety narrative is required. Any fatalities experienced within this 5-year timeframe must be explained in detail, to include root cause and corrective actions.

NOTE: DART and TCR shall not be submitted for subcontractors

1. DART Rate: Submit five (5) previous complete calendar years' [CY2019, CY2018, CY2017, CY2016, and CY2015] worth of data (not an overall average). If the Offeror has no DART rate, for any year, affirmatively state so and explain why. Should a negative trend occur above moderate risk levels, an acceptable/detailed explanation is required that includes any corrective actions taken for improvement.

a. DART cases include injuries or illnesses resulting in death, days away from work, and/or restricted work or transfer to another job days beyond the day of injury/illness.

b. Calculation of DART rate: Multiply the total number of DART cases by 200,000, and then divide by the number of employee labor hours worked.

2. TCR Rate: Submit five (5) previous complete calendar years' [CY2019, 2018, 2017, 2016, and 2015] worth of data (not an overall average). If the Offeror has no TCR rate, for any year, affirmatively state so and explain why. Should a negative trend occur above moderate risk levels, an acceptable/detailed explanation is required that includes any corrective actions taken for improvement.

a. TCR cases include injuries or illnesses resulting in death, days away from work, restricted work or transfer to another job days beyond the day of injury/illness, medical treatment beyond first aid, or loss of consciousness.

b. Calculation of TCR rate: Multiply the total number of TCR incidents by 200,000, and then divide by the number of employee labor hours worked.

3. Technical Approach to Safety: Submit a narrative that addresses the following:

a. Describe the Offeror's approach to implementing and executing a Safety Management System (SMS) including Management/Leadership involvement, Employee involvement, Hazard prevention, Hazard control, Worksite analysis, and Safety and health training, to include the standard(s) used to benchmark the SMS.

b. Describe the evaluation process used to select potential subcontractors.

c. Describe the processes of how the Offeror will oversee safety compliance of subcontractors at all levels throughout performance of the contract (to include the Offeror's own in-house workforce).

d. The Technical Approach to Safety narrative shall be limited to two (2) single-sided pages or one (1) double-sided page.

4. The Government reserves the right to review other available sources (public/Government internal) of information. These may include but are not limited to OSHA data, NAVFAC's Contractor Incident Reporting System (CIRS), Contractor Performance Assessment Reporting System (CPARS), Electronic Contract Management System (eCMS), etc.

(ii) Basis of Evaluation:

The Government is seeking to determine that the Offeror has consistently demonstrated a commitment to safety and that the Offeror plans to properly manage and implement safety procedures for itself and its subcontractors. The evaluation will collectively consider the DART rate, TCR, Technical Approach to Safety, and other sources of information available to the Government as part of such collective evaluation. The board will evaluate the DART rates and TCR to determine if the Offeror has demonstrated a history of safe work practices taking into account any negative trends and extenuating circumstances that impact the rating.

1. DART Rate: The board will evaluate trends over the last five years considering changes that take it from one risk level (or more) to the next up or down. Negative trends occurring above moderate risk levels require the offeror to provide a detailed explanation that includes any corrective actions taken for improvement.

a. Missing data without an explanation is considered a deficiency.

b. Declining trends that push the risk levels from Moderate Risk (MR) or higher to Low Risk (LR) or Very Low Risk (VLR) would indicate a strength.

c. An increasing DART rate trend could be considered a weakness (i.e. MR or better to High Risk (HR) or Extremely High Risk EHR)) if an acceptable explanation is not provided for any trends that rise above Moderate.

d. This chart correlates the DART rate to the level of risk:

Risk	DART Rate
Very Low Risk	Less Than 1.0
Low Risk	From 1.0 to 1.99
Moderate Risk	From 2.0 to 2.99
High Risk	From 3.0 to 4.0
Extremely High Risk	Greater than 4.0

2. TCR Rate: The board will evaluate trends over the last five years considering changes that take it from one risk level (or more) to the next up or down. Negative trends occurring above moderate risk levels require the offeror to provide a detailed explanation that includes any corrective actions taken for improvement.

- a. Missing data without an explanation is considered a deficiency.
- b. Declining trends that push the risk levels from Moderate Risk (MR) or higher to Low Risk (LR) or Very Low Risk (VLR) would indicate a strength.
- c. An increasing TCR rate trend could be considered a weakness (i.e. MR or better to High Risk (HR) or Extremely High Risk EHR)) if an acceptable explanation is not provided for any trends that rise above Moderate.
- d. This chart correlates the TCR rate to the level of risk:

Risk	TCR Rate
Very Low Risk	Less Than 2.49
Low Risk	From 2.5 to 3.49
Moderate Risk	From 3.5 to 4.49
High Risk	From 4.5 to 5.99
Extremely High Risk	Greater than 6.0

3. The Technical Approach to Safety Narrative. To determine the degree to which the Offeror:

- a. Describes a viable SMS that addresses elements; such as Management/Leadership involvement, Employee involvement, Hazard prevention, Hazard control, Worksite analysis, and Safety and health training, to include the standard(s) used to benchmark the SMS.
- b. Describes a methodical process of evaluating subcontractor's safety performance in their selection process.
- c. Describes a logical management plan to hold themselves and their subcontractors accountable for adhering to the safety requirements of the contract.
- d. The Technical Approach to Safety narrative shall be limited to two (2) single-sided pages or one (1) double-sided page. Information on pages beyond this will not be considered.

4. The Government reserves the right to review other available sources (public/Government internal) of information. These may include but are not limited to OSHA data, NAVFAC's Contractor Incident Reporting System (CIRS), Contractor Performance Assessment Reporting System (CPARS), Electronic Contract Management System (eCMS), etc.

Factor 4 - Past Performance:

(i) Solicitation Submittal Requirements: IF A COMPLETED CPARS EVALUATION IS AVAILABLE, IT SHALL BE SUBMITTED WITH THE PROPOSAL. IF THERE IS NOT A COMPLETED CPARS EVALUATION, the Past Performance Questionnaire (PPQ) included in the solicitation is provided for the offeror to submit to the client for each project the offeror includes in its proposal for Factor 1, Corporate Experience. AN OFFEROR SHALL NOT SUBMIT A PPQ WHEN A COMPLETED CPARS IS AVAILABLE.

IF A CPARS EVALUATION IS NOT AVAILABLE, ensure correct phone numbers and email addresses are provided for the client point of contact. Completed PPQs should be submitted with your proposal. If the offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the offeror should complete and submit with the proposal the first page of the PPQ (Attachment B), which will provide contract and client information for the respective project(s). Offerors should follow-up with clients/references to ensure timely

submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Emily Walton, via email at emily.walton@navy.mil prior to proposal closing date. Offerors shall not incorporate by reference into their proposal PPQs or CPARS previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation.

Performance award or additional information submitted will not be considered.

Offerors are highly encouraged to address problems encountered and the corrective actions taken on projects submitted under Factor 1 – Corporate Experience. Offerors are also highly encouraged to address any adverse past performance issues. Explanations shall not exceed two (2) double-sided pages (or four (4) single-sided pages) in total.

In addition to the above, the Government may review any other sources of information for evaluating past performance. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using all CAGE/Entity Identifier numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary/affiliate) identified in the offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the offeror.

While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

A copy of the blank Past Performance Questionnaire to be used for requesting client references is included as Attachment B.

(ii) Basis of Evaluation: The degree to which past performance evaluations and all other past performance information reviewed by the Government (e.g., PPIRS, Federal Awardee Performance and Integrity Information System (FAPIS), Electronic Subcontract Reporting System (eSRS), performance recognition documents, and information obtained from any other source) reflect a trend of satisfactory performance which may consider:

- A pattern of successful completion of tasks;
- A pattern of deliverables that are timely and of good quality;
- A pattern of cooperativeness and teamwork with the Government at all levels (task managers, contracting officers, auditors, etc.); and
- Recency of tasks performed that are identical to, similar to, or related to the task at hand

(a) Definitions. As used in this clause--

Backhaul means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (e.g., connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (e.g., fiber optic, coaxial cable, Ethernet).

Covered foreign country means The People's Republic of China.

Covered telecommunications equipment or services means--

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

(3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

(4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means--

- (1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

Interconnection arrangements means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (e.g., connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

Reasonable inquiry means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

Roaming means cellular communications services (e.g., voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential

component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

(c) Exceptions. This clause does not prohibit contractors from providing--

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at <https://dibnet.dod.mil>. (ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: Any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (b)(2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.

However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (d) of this clause. Such a concern is "not dominant in its field of operation" when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(b) If the Contractor represented that it was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, upon occurrence of any of the following:

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts--

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) If the Contractor represented that it was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, when the Contracting Officer explicitly requires it for an order issued under a multiple-award contract.

(d) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/support--table-size-standards>.

(e) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.

(f) Except as provided in paragraph (h) of this clause, the Contractor shall make the representation(s) required by paragraph (b) and (c) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause, or with its offer for an order (see paragraph (c) of this clause), that the data have been validated or updated, and provide the date of the validation or update.
