CODE		FACILITY CODE					
11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS							
<input checked="" type="checkbox"/> The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer <input type="checkbox"/> is extended, <input checked="" type="checkbox"/> is not extended. Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning <u>1</u> copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.							
12. ACCOUNTING AND APPROPRIATION DATA (If required)							
13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.							
A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.							
B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).							
C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:							
D. OTHER (Specify type of modification and authority)							
E. IMPORTANT: Contractor <input type="checkbox"/> is not, <input type="checkbox"/> is required to sign this document and return _____ copies to the issuing office.

SUMMARY OF CHANGES**AMENDMENT 0003**

The purpose of this Amendment is to provide the following:

1. Provide responses to Pre-Proposal Inquiries (PPI's)
2. Revised Wage Determination

All other terms and conditions remain unchanged.

The following drawing is revised in response to pre-proposal inquiries:

Drawing FD002- Fuel Piping Demolition Notes, Note 5

Reference to Sheets C-101 through C-102 are to be removed completely and replaced with Sheets CG100, CG101 thru CG104 for final grading plans.

PPI #	Reference			Question	Response
	Page	Section	Paragraph		
2	Page 2 of 11	General Requirements	"Storage Tanks: Excavate, remove bunkered fuel storage tanks"	Please provide drawings of the existing tanks to be demolished. If no drawings are available please advise as to the steel tank top thickness and the wall construction details	Bid per the plans and specifications
3	G002	General Notes	2	The tanks are decommissioned and fuel free and no further cleaning and decommissioning prior to demolition. Can the government provide any certification and/or list showing the cleaning date?	Refer to Specification Section 02 65 00 Section 3.2. Tank and Pipeline Decommissioning was completed on approximately March 21, 2019.
4	GD 103	Building notes		Does the government have a hazmat survey they can provide?	Yes, the Hazmat Survey was provided with the Design and included as an attachment to specification 02 83.
6	General Notes	General Notes	General Notes	Can the government provide site and slit fencing specs and requirements for this project?	Project silt fence shall comply with the Virginia Erosion and Sediment Control Handbook Section 3.05, and provided per the erosion and sediment control plans. Chain Link fencing shall be provided in accordance with the project plans and the details on C-500.
7	General Notes	General Notes	General Notes	Will compaction testing be required? Please provide the minimum compaction percentage?	Yes, Bid per RFP (refer to section 31 23 00.0020)
8	C-500	B3	Notes	Will the government please confirm that concrete testing is not required on this project?	Confirmed. No project-specific specification for testing requirements for the concrete

					installation, however all concrete for thrust blocks and curb to be installed shall be installed and tested per manufacturers/suppliers recommendations.
9	General Notes	General Notes	General Notes	Are there any known permits required to be obtained by the contractor (other than Dig permit)? (IE. DEQ, State, local, SWPPP, EPA, Etc..)	Contractor is responsible for obtaining all permits necessary to complete the scope as described in the bid package, including coverage under the General Virginia Pollution Discharge Elimination System (VPDES) Permit for discharges of stormwater from construction activities, which will require the preparation, submittal, and approval to VDEQ of a site-specific construction Storm Water Pollution Prevention Plan (SWPPP) compliant with the Virginia Department of Environmental Quality (VDEQ) approved drawings, specifications, and the previously prepared VDEQ approved project specific Stormwater Management plan and Erosion and Sediment Control Plans.
10	General Notes	General Notes	General Notes	Is there a full-time SSHO required?	Yes, Bid per RFP (Reference Specification 01 35 26)
11	General Notes	General Notes	General Notes	Is a full-time Quality Control Manager required?	Yes, Bid per RFP
12	G002	General Notes	3	Is the Fuel tank known to be leaking? Are there any contamination removal requirements?	No, Bid per RFP
13	GD 908	Sheet Key	4	Is any state reporting required for the tank removal? Or will the government handle that reporting?	Yes, Bid per RFP (Reference specification 02 65 00)
14	GD 908	Sheet notes	2	The Scope states to demolish Buildings 139 and 225 but does not identify the domestic water and sanitary systems, will the government please confirm that these items will be demolish as well?	The domestic water and sanitary sewer systems associated with buildings 139 and 225 are to be removed. See "CD" series sheets for more information.
15	General Notes	General Notes	General Notes	Will the government please confirm that the SSHO, QC, and Superintendent can be one triple hatted individual for this contract that is employed by the prime contractor and holds all the necessary qualifications and experience?	No, Bid per RFP (Reference Specification 01 35 26, Section 1.7.1.1.1)
16	2	Attachment D DOC 00 22	CLIN 0003 Option Item No. 2	Does NAVFAC expect that the 9 monitoring wells for destruction will be able to be completed in one mobilization or will they be spread	The contractor will identify all unidentified monitoring wells and determine timeline for abandonments.

		13.00		out in time?	
17	2	Attachment D DOC 00 22 13.00	CLIN 0004 Option Item No. 3	Is the 10" recovery well being used for recovered of separate phase hydrocarbons?	The 10" recovery well is performing manual free product recovery.
18	9	01 45 00.00 20	1.11.2	Does NAVFAC require DOD protocols for the environmental lab work or will Federal EPA (ELAP) certification be sufficient? (Same labs, it's just a little cost difference with their protocols.)	NAVFAC requires DoD protocols for environmental lab work. Analytical laboratories are required to be Virginia Environmental Laboratory Accreditation Program (VELAP) certified/accredited. Facilities providing Virginia DEQ with environmental laboratory data to satisfy permit and/or regulatory requirements must ensure their environmental laboratories (commercial or noncommercial) have been accredited or certified by DCLS.
19	81	Attachment A - 130250 2dwg01 of01	N/A	Are there any profile details of the bunkered tank walls available? George mentioned that he doesn't think the steel wall thickness would be much different with the CIP concrete basins. The concrete is really just there for secondary containment. He mentioned that there may even be an interstitial space between the steel and concrete. It's possible that was the monitoring purpose of the sensors you mentioned.	The only available drawings of the existing tanks are included as reference drawings at the end of the construction drawing set.
20	Drawing FD002	Fuel Piping Demolition Notes, Note 5		Sheet FD002 references Sheets C-101 thru C-102 which are missing from the drawings. If these references are not in error, can Sheets C-101 and C-102 be provided?	See Amendment 0003; Summary of Changes.
21	GD905	Key Notes	Key Notes	Will the government please confirm that Drawing GD905 shows building 216 remains for the exception of interior select demolition as indicated in the notes?	Confirmed. Bid per RFP.
22	Key Notes	Key Notes	Key Notes	What is the expectation on the anode removal? In a conversation with an Anode Engineer, the common practice is to remove enough of the cable from near the surface and abandon in place. It is impossible to remove 100 ft deep	The deep well anode bed can be abandoned in place, with surface level type cables and test positions removed to a depth of 6 feet below the surface.
23	C-501	General Notes	General Notes	Clarification on the building design of the temporary Sediment Basins on C-501, does not match the overall appearance as to what is shown on CE100, will the government please confirm?	The temporary sediment basins shall be constructed and sized per the details on C-501, and located in surface flow paths so as to intercept runoff from the disturbed area. Per Note 2 on C-501, sediment basins must generally be

					located as shown on Erosion Control Plans CE100 Through CE104, and situated so as to best intercept sheet flow from the disturbed areas. Re-direct surface flows throughout construction of temporary swales or other methods as needed based on changes to grading/contours throughout the project.
24	General Notes	General Notes	General Notes	Will the Temporary Sediment Basins remain after our site work, or will we be removing them at the end of our site work?	Per Note 18 of the VA Erosion and Sediment Control Minimum Standards on CE01, the temporary sediment basins will be removed following site stabilization at the end of the project within 30 days after final site stabilization.
25	General Notes	General Notes	General Notes	Some of the demo drawings reference C101 and C102 drawings and no where in the drawings are these located. Will the government please provide reference drawing C101 and C102?	See Amendment 0003; Summary of Changes

2. The following Wage Determination has been revised and is provided in full below:

From

VA20220169 01/07/2022

To

VA20220169 02/25/2022

"General Decision Number: VA20220169 02/25/2022

Superseded General Decision Number: VA20210169

State: Virginia

Construction Type: Building

County: York County in Virginia.

Includes the independent city of Poquoson*

BUILDING CONSTRUCTION PROJECTS (does not include single family homes or apartments up to and including 4 stories).

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(2)-(60).

| If the contract is entered | . Executive Order 14026 |

into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	generally applies to the contract.
	The contractor must pay all covered workers at least \$15.00 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2022.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	Executive Order 13658 generally applies to the contract.
	The contractor must pay all covered workers at least \$11.25 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2022.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Additional information on contractor requirements and worker protections under the Executive Orders is available at <https://www.dol.gov/agencies/whd/government-contracts>.

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$15.00) or 13658 (\$11.25). Please see the Note at the top of the wage determination for more information.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number

where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
